Summary

Computer Science Engineering graduate with strong proficiency in **Java, Python, SQL, React, Node.js, and MongoDB**. Experienced in full-stack web development, REST API development, database management, and machine learning concepts. Strong analytical thinking, problem-solving, and team collaboration skills.

Technical Skills

Programming Languages: Java, Python, SQL

Frontend Technologies: HTML, CSS, JavaScript, React

Backend Technologies: Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, VS Code

Machine Learning: Logistic Regression, Support Vector Machine (SVM)

Libraries: Pandas, NumPy, Scikit-learn

Projects

ShopNova – E-Commerce Platform

GitHub

- Built a full-stack e-commerce platform supporting secure authentication, product management, and order processing.
- Designed and implemented **12+ REST APIs** for handling authentication, products, and user operations.
- Enhanced database query efficiency and reduced response time by **15%**.

Fraud Detection System

GitHub

- Developed machine learning models using Logistic Regression and SVM for fraud transaction detection.
- Processed and analyzed **1000+ transaction records** using preprocessing and feature engineering techniques.
- Increased prediction accuracy by **12–15%** through model tuning and optimization.

Experience

Frontend Developer Intern

2025

- Created **8+ responsive UI components** and integrated backend APIs for dynamic content rendering.
- Optimized frontend performance and reduced application load time by **20%**.

Full Stack Java Developer Intern

2025

- Implemented and tested **10+ backend APIs** supporting CRUD operations and user management.
- Performed API debugging, validation, and testing using Postman to improve system reliability.

Education

B.Tech in Computer Science Engineering

2022–2026

Swarnandhra College of Engineering and Technology

CGPA: 8.54/10

Intermediate (MPC)

2020–2022

Sri Surya Junior College

70%

SSC

Sunshine EM High School

78%

Strengths

Problem Solving · Analytical Thinking · Quick Learner · Team Collaboration
